Summer building projects

During the summer we had the boiler in the cellar replaced and the water heater in the changing room. We are hoping that this winter our heating will work much more efficiently than it has done previously!

At the top of the Willow Garden there is a temporary cover over a drain. We are currently investigating the state of the drains to resolve the issue of the path in the garden being washed away during heavy rain. This work will be completed later this term and the path repaired.
