

Monday 28th September 2020

A small selection of harvest gifts donated this year

Box CE VC Primary School
01225 742663

Diary Dates

02/11/20—SDDay
04/01/21—SDDay
19/04/21—SDDay

The school is closed on SDDays
for staff development

Harvest Festival

Thank you, for all the harvest gifts brought in by the children these went on to the 'Sisters of the Church' for distribution to the homeless and those in need in Bristol.

Collective worship

As a school we place great value on the benefits of coming together for acts of collective worship. Although we are not able to hold whole school assemblies at present we continue to approach the use of collective worship in a similar way within the classes.

This term our big questions and discussion topics focus on 'Perseverance' and we invite families to explore this as well. To help you, each term, we put the big questions and a 'Home School Values' activity sheet on the school website that can be downloaded and used to stimulate discussion and reflection together: [Big Questions](#)

Individual photos

The photographer will be in school to take individual photos on Wednesday 14th October. This year we won't be able to offer family photos with sibling from pre-school or other classes.

Messages

If you have any messages for your child's teacher, especially collection arrangements, please email the school office admin@box.wilts.sch.uk and they will be passed on.

Initial parent presentations

Just a reminder that the initial parent presentations are available on the class pages of the website along with contact details for your children's teachers.

Letter for parents

On the following pages is a letter from Public Health England about coronavirus symptoms and when children need a test.

Test and Trace

23 September 2020

Dear parents and guardians,

This is an important letter to share some information on how we can work together to make sure we can continue to give children and young people the best education in the safest way possible.

One important part of ensuring the safety and wellbeing of pupils, parents and our communities is testing for coronavirus. We all have a duty to make sure that the right people have access to get tested at the right time. Every time a test is used inappropriately, a person with Covid-19 symptoms may miss out on getting tested.

Therefore, I ask that you all follow these principles:

- You should only book a test if your child has any of these three coronavirus symptoms:
 1. **a high temperature:** any new high temperature where your child feels hot to touch on their chest or back (you do not need to measure the temperature)
 2. **a new continuous cough:** coughing a lot for more than an hour, or three or more coughing episodes in 24 hours
 3. **a loss of, or change in, sense of smell or taste:** a noticeable loss of smell or taste or things smell and taste different to normal
- Your child **does not need a test** if they have a runny nose, are sneezing or feeling unwell but do not have a temperature, cough or loss of, or change in, sense of smell or taste because these are not normally symptoms of coronavirus.
- If you are unsure about whether to get a test, please check the official list of symptoms on the NHS website, which is reviewed regularly:
www.nhs.uk/conditions/coronavirus-covid-19/symptoms/
- Only the person with symptoms should get a test. You do not need to get a test for anyone else in the household unless they also have any of the three symptoms listed above. All members of the household need to self-isolate whilst waiting for the test result.

- If the person with symptoms' test comes back positive, other members of their household should continue self-isolating for 14 days and **only get a test if they develop coronavirus symptoms.**
- If a pupil in a class or bubble tests positive for coronavirus, anyone who is advised to self-isolate **does not require a test unless they subsequently develop symptoms.**

No one else in the same class or bubble as the symptomatic person needs to take any action unless advised by the school. Schools have detailed guidance and access to a Department for Education and Public Health England helpline for advice and support.

Contacts of a person who has tested positive must follow the guidance carefully and in full, which means they must stay at home for 14 days. This is because it can take several days following contact with an infected person before an individual develops symptoms or the virus can be detected. Students should only book a test if they get symptoms.

The NHS has produced some guidance to help parents understand when their child can and cannot attend school which you may find useful: <https://www.nhs.uk/live-well/healthy-body/is-my-child-too-ill-for-school/>

It is vital for children's learning and future opportunities that they are able to return to school and college. It is therefore vitally important that all we work together and do our bit to make this possible.

Yours sincerely,

Professor Viv Bennett CBE
