

Growth Mindset Homework - Set 6.1.23 - due 13.1.23

As we start a new term, it is important to go into the term with a growth mindset - remember we can achieve so much if we have the right outlook!

Below write statements starting with 'I can' about what you *CAN* do this term!

Example: I can work hard in understanding fractions this term!

Have a little look at Miss Long's example on the school website if you are stuck for ideas! You can colour it in and make it bright and bold as well!
