

To infinity and beyond... well to your chosen planet!

Due 1.2.23

For this term our science unit is Earth and Space and the children have been learning all about our solar system! For your homework for the next two weeks, please research a planet within our solar system and create a poster explaining it!

Below is an example on one made on the computer:

You can create your poster by hand, make a model or even create a poster on the computer!

Include INTERESTING facts and beautiful drawings or diagrams!

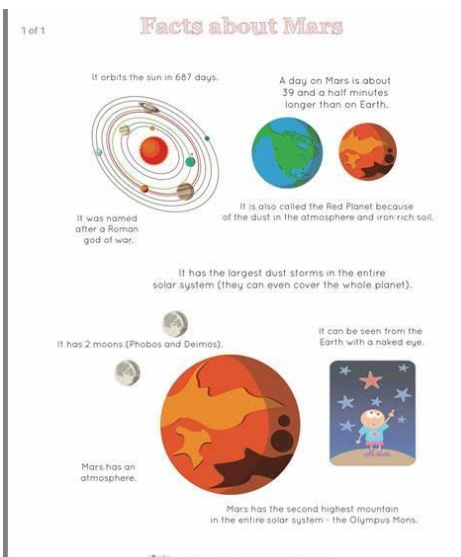

I look forward to learning with you, all about the planets!
