

Hello Chestnut Class!

Well done for completing another focused and excellent term!

Over the half term, I want you to think nature!

When you return from half term, we will begin to make our sculptures, inspired by Andy Goldsworthy, so you'll need to collect your natural resources and bring them into school ready!

You will need:

- A stick or small branch (which looks similar to the shape of a small tree)
- Stones/stone which is big enough to be a base to our sculpture

Please ensure you are not picking from plants which are still alive - these should be things you find on the floor. The school will be providing the wire.

I have attached a picture of what we are aiming to create for reference!

I look forward to see what natural resources you can find - remember not too large!

Miss Long
