

Mental health support lines- Covid response April 2020

We have developed across the system support helplines:

- Urgent Mental Health need (AWP & CAMHS) with 24/7 coverage for those known to services or with an urgent mental health need, for individuals known to AWP/those with a mental illness regarding an urgent response. This support line is also available for health professionals.
- Emotional and Mental Wellbeing Support (EMWS); helplines at locality level are run by the third sector.
- CAMHS are in the process of transitioning from their current front door telephone lines (locality numbers see table below) to a dedicated BSW support line which is scheduled to come online next week.

Mental Health Support Lines			
Core Urgent Mental health, and Emotional & Mental Wellbeing support lines have been established at pace:
