Safer Internet day:

The focus this year is; 'scamming and how to recognise and protect yourself and others from it', 'phishing' and 'protecting your profile' online.

1. Please have a discussion with your parents around how they can protect their profile online. Talk to them about the risks of going online and how they keep their own and your personal details private.

Risks we discussed about being online and using the internet

Ways my parents and I keep ourselves safe online

2. We talked about scams in class this week. Ask you parents if they have ever been scammed and what did they do to protect themselves.
3. Look at the picture below and talk to your parent about all the things which are unsafe. Circle them on the picture and talk about why they are not safe

4. Finally, make your own Internet Safety day poster to put up in class or your own house to remind everyone of how to stay safe online
