

Ash Class Home- Learning  
Term 5 Week 5

### Reading and Stories

Reading with and to your child at home is the most important way that you can support your child's learning.

Please try to read your child's phonics reading book with them **every day** this only needs to take five minutes and can be just a page or two. Please record in their reading record that you have heard your child read, this can be just a date and signature or a more detailed comment

The reading books are carefully matched to your child's reading ability and they should be able to read them with relative ease, if your child is struggling please note this in their reading diary so that we can change the book level and offer more support in school.

We learn to read using phonics and the children will need to say the sounds and read the word (I say this to the children when I read with them at school and will often model reading the first word of the title like this to get them started.)

If your child makes a mistake help them, reading should be fun and not a struggle.

If they say the wrong sound simply tell them the sound- e.g That is d, say the sounds again but this time when you get to this letter say d.

Digraphs and Trigraphs- these are two or three letters that spell one sound eg sh or igh. These are hard to spot when the children are first learning to read so DO point them out in a friendly way.

The books will also contain common exception words- these are words which the children cannot sound out phonetically yet and we will have been learning those words in school by sight.

It is a good idea to look at the back cover of the book before you start reading it as often common exception words or words your child may find difficult are listed here and your child can practice reading them before they start.

I will give every child two books to bring home and if they need new books please ask your child to put the books and their reading record in the basket in the classroom, your child will know what this means.

Reading books are expensive so please do look after them, I found with my own children it was easiest to keep them in their reading bag when they were not reading them.

Children also need to listen to stories so try to make time every day to share stories and books with your child as you read together they will be learning new vocabulary, the structure of stories and that reading is fun and something that they want to learn. You can share picture books, chapter books, information books and even stories from your head.

### **Year One and Reception- The Beach**

Next term our topic will be Let's go to the Beach!

It would be lovely for the children to start the topic by sharing photos of themselves at the beach (if they have any!) Please help your child to choose some beach photos to bring in and share with their friends. Talk to your child about where they are, who they went to the beach with and what they did at the beach.

If the children would like to they can write some of this information in their homework books.
