

Beech Class Home Learning Year 3 & 4 - English; Design The Iron Man

Date- 13/2/26

As it is the Half Term holiday, and many of you have exciting plans, this is an **optional** piece of home learning, if you would like to do it.

Design and make **The Iron Man** from the story.

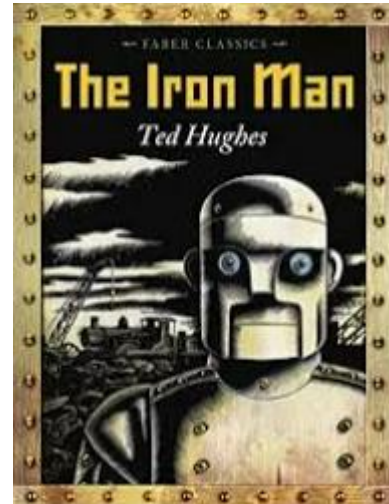

You can choose to make:

- a **2D model** (drawing or collage)
- a **3D model** (using boxes or recycled materials)

Try to show what makes **The Iron Man special**.

You can re-use and recycle things from home, such as:

- Paper or card
- Boxes, tubes, cartons
- Foil, bottle tops, lids
- Crayons, pens or paint

Please make sure you use any equipment safely and ask an adult for help if needed.

-Think about what **The Iron Man** looks like in the story, from our reading of it this term.

-Plan your idea with a quick sketch or by choosing materials.

-Make your **2D or 3D model**.

-Have fun and enjoy your creativity!

-Bring your 2d/3d picture or model into school so we can share and celebrate them. **Please do not stick any pictures into your home learning book** so that we can display them in the classroom.

Challenge-Add **labels** or write a **descriptive paragraph** about your model.
