

Beech Class Home Learning Year 3 & 4 - The Vicar's Easter Challenge 20/3/26

This is an **optional** piece of home learning, if you would like to do it.

This year we are trying to break the egg, rather than protect it.

Create a vehicle (or similar!) that fits in the track (8cms in total across) and will run smoothly and quickly down the track to break the egg at the end!

You can use a vehicle as a base but it must not be **just** a vehicle. You need to have modified it in some way.

Please see the attached PPT from Clair, that the children saw in assembly this week, for further information.

Please bring your creation in to school on **Monday 23rd March** as we will be testing them in the afternoon.

Have fun!
